Tell your Senator to vote YES on confirming Julie Su as the next United States Secretary of Labor

Dear Affiliates,

We need your help today to make sure Julie Su becomes the next Secretary of the Department of Labor (DOL). She had her nomination hearing with the Senate HELP committee this week and will now be voted on by the full Senate next week on Wednesday April 26th. We are asking that you contact your Senator today and urge them to vote YES on this important nomination fight!

Having a strong, dedicated and experienced leader at the helm of the Department of Labor is necessary in protecting the rights of American workers and advancing their employment opportunities. Ms. Su is exactly the right person to take on this job because of her extensive experience and dedication to worker rights.

As Deputy Director at the DOL, she helped implement pro-Teamster policies, job creating initiatives, directing funds and resources to workforce training programs and apprenticeships. Ms. Su was a strong advocate for the Bipartisan Infrastructure Law, the Inflation Reduction Act and the CHIPS Act. Before joining the administration, Ms. Su was head of California's Labor Department where she worked to combat wage theft, protect worker rights to organize and administered the nation's first ever paid family and medical leave program.

With such a slim majority in the Senate, every vote counts so please tell your Senator to vote YES on confirming Julie Su as the next United States Secretary of Labor.
