Dear Friend:

The Teamsters Unions, comprising Joint Council of Teamsters, No. 28, of Seattle, Wash., send you the enclosed record in the belief that you will enjoy hearing the voice of your loved one who is now in the service of our country. We do this as a contribution to the nation's patriotic effort. While making this recording we had an opportunity to observe him and we know that you will be glad to have us tell you that he is well and in good spirits.

This recording was transcribed just after his arrival at Fort Lawton, Seattle, from overseas. So that you may hear his voice and his message at the earliest possible moment, the Teamsters Unions of Seattle are sending you this recording VIA AIR MAIL.

We would appreciate hearing from you if you enjoy this record and if it arrived in good condition.

Hoping that it will give you pleasure to hear the voice recorded here, we are

Cordially yours,

DAVE BECK, *President,*
Joint Council of Teamsters, No. 28,
Seattle, Washington.

NOTE: Please do not play this recording on an old, heavy-arm phonograph as that will spoil it. The modern type, light-arm, electric pickup type of phonograph will bring out the voice perfectly and will play this recording many times. Use only shadowgraph steel needles. DO NOT USE fibre or cactus needles on this type of recording.
